

## WORK EXPERIENCE

### **ASP.NET (C#) + FRONT-END AND AJAX DEVELOPER**

**I-D Media, London**

**July '08 – Present**

- Worked with clients such as Renault UK, Times Online and Knoll International.
- Maintained large scale web applications.
- Worked in a team on large projects, in a variety of roles from front-end to back-end and even as a team lead on a couple of projects.
- Worked as the sole developer on a large variety of smaller sites, campaigns and briefs, where I had to take responsibility for all development from database design all the way through to AJAX effects and CSS.

### **JUNIOR ASP.NET + FRONT-END DEVELOPER**

**Fingal Creative, London**

**May '07 – June '08**

- Worked with clients such as Rolls Royce Motor Cars, Silverstone Circuit, and Land Rover Jaguar.
- Learnt how to build semantic, standards compliant websites optimized for search engines using advanced XHTML and CSS techniques.
- Lead projects reusing and customising a C#.net CMS platform which I originally helped develop.
- Managed analytics and email campaigns.
- Moved from JSP & J2EE to C#.net.

### **JUNIOR WEB DEVELOPER**

**Ivory Tower Internet Solutions, Cape Town**

**October '06 – March '07**

- Maintained and updated J2EE legacy ecommerce platforms and booking engines.
  - Worked in a peer programming environment.
  - Learnt how to deploy web applications and work with source controlled code.
  - Learnt how to translate client briefs into object orientated solutions.
-

## RELEVANT EDUCATION

### **COMPREHENSIVE PROGRAMMING - JAVA** **CTI Claremont, Cape Town** **Graduated 2006 with Distinction**

Comprehensive Programming - COMP.PROG (Distinction).  
Certified by University of Cambridge International Examinations &  
NCC Education.

Computing Concepts, End User Computing, Processing and Logic  
Concepts, Program Design, Software Engineering, Relational  
Database Modelling and Design, SQL Server 2000, Java A, Java  
B, JSP – Final Average 82%

### **RELEVANT HIGH SCHOOL EDUCATION** **Worcester Gymnasium, Worcester, South Africa** **Computer Studies 2003 – 2005**

Studied database design and object orientated programming  
using Java (J2SE) for 3 years.

### **OTHER COURSES**

Advanced techniques in XHTML and CSS – Eric Meyer (2007)

---

## SKILLSET

### **ASP.net (C#), OOP, SQL Server, XHTML, HTML 5, XML, CSS,** **JavaScript, AJAX, Mootools, SEO and Web Standards**

Java (J2EE, J2SE and J2ME), JSP, SVN, Google Analytics,  
Adobe AIR (XHTML only), Fireworks and Photoshop
